

A person in silhouette, wearing glasses, is looking at a computer monitor. The monitor displays a geospatial application with a 3D wireframe model of a road or bridge structure overlaid on a satellite image. To the right of the 3D model is a heatmap visualization. The person's head and shoulders are visible in the foreground on the left side of the frame.

THE LEADER IN MANAGED GEOSPATIAL SERVICES™

SAM has built a reputation as a trusted, knowledgeable, and innovative partner. SAM transforms petabytes of complex spatial data into intelligent insights through a holistic Managed Geospatial Services™ framework. As North America's premier MGS™ company, SAM provides practical, precise, and high-fidelity solutions designed to enhance decision-making, mitigate risks, achieve strategic objectives, and drive costs out of our client's business. SAM's vision is to advance spatial data acquisition, improve analysis capabilities, and develop predictive analytics to redefine and transform how infrastructure assets are developed and managed throughout their lifecycles.
